4. Entering Game Scores after the game. We have a 3 part method for ensuring accurate game scores. Each coach(unless non-AYSO team) would enter the score and the referee will score on the referee site. If coaches score matches it gets entered officially, if discrepancy then the referee score is used as the final. The scoring window also lets you track your player goals as well for stat keeping. Yellow and Red cards are tracked as well and a red card results in 1 game additional suspension dependent on regional review.
 - a. To enter scores follow all of the steps in 3b to get back to the same screen you printed game cards on. On this screen click on the score for your team box and it will bring up a scoring window that looks like the screen below

Instructions:
 The required fields are **Team Colors** and **Team Scores**. Team Colors cannot match.
 In Goals/Cautions/Ejections section, Please select from the drop down to add goals, ejections, or cautions for a selected Admin or player.
